4 DECEMBER 2024

Dear Hiring Manager at Google Cloud Platform,

I am thrilled to apply for the Product Manager role with Google Cloud Platform. As a dedicated student with a passion for cybersecurity, I have gained hands-on experience with Google Cloud, deepening my understanding of cloud security, infrastructure management, and data protection. I am eager to leverage my growing expertise to contribute to Google Cloud Platform Security's mission of safeguarding digital assets and fostering a secure online environment.

Through my coursework and independent projects in cybersecurity, I have developed a strong foundation in cloud security, infrastructure management, and data protection. I have also gained practical experience using Google Cloud to understand secure deployment practices, manage cloud infrastructure, and analyze potential vulnerabilities in cloud environments. These experiences have sharpened my problem solving abilities and reinforced my commitment to protecting digital infrastructure from potential threats. My involvement as a participant in cybersecurity-related workshops and hands-on labs has further enhanced my analytical thinking and problem-solving skills. Additionally, I have completed Google Cloud training modules, which have equipped me with a practical understanding of cloud infrastructure, secure deployment strategies, and strong practices for safeguarding data in cloud environments.

I am enthusiastic about the opportunity to grow within Google Cloud Platform Security and collaborate with experienced professionals as I work toward my goal of becoming a cybersecurity expert.

My passion for technology, strong work ethic, and practical experience with Google Cloud's infrastructure have equipped me with the skills and dedication needed to make meaningful contributions to your team while deepening my expertise in cloud security and digital asset protection.

Sincerely,

**Sohan Gandra**
